

Group 8- Project 1: Austin Crime Reports (2022)

Team Members:

Erin Gorishek
Guillermo Galarza
Lillian Ibarra
Iliana McArdle

Research Questions:

1. Categorizing the type of crimes being reported throughout the Austin area.
2. Identify peak times of reporting throughout the day and through the year.
3. See the average time frame crimes are solved, and correlation for types of crimes.
4. Locate where the crimes are located and what ADP district is assigned to that district.

Datasets to be used- timeframe of 2022
